Stacy M. Lloyd, M.P.H., Ph.D.
Adjunct Professor
Department of Biomedical Sciences
Texas A & M University Corpus Christi
Postdoctoral Fellow
Department of Molecular & Cellular
Baylor College of Medicine

*More than thirty years of research demonstrate that there are wide disparities in health throughout America. Health disparities are differences in the incidence, prevalence, mortality, and burden of diseases and other adverse health conditions that exist when specific population subgroups are compared. **This course brings in nationally and internationally renown speakers who will examine the social and societal factors that are fundamental in creating disparities in health.** The course will focus on the formulation of public policy objectives to reduce and ultimately eliminate health disparities.*

2016 CURRENT INSTRUCTORS OF RECORD please contact for institutional information:
